Pharmacy Management System — Work Breakdown Structure (WBS)

CSE 3324 – System Analysis and Design Lab | Group: Binary Brains

1.0 Pharmacy Management System

1.1 Project Planning & Requirement Analysis

- 1.1.1 Stakeholder interviews at Mergen Pharmacy
- 1.1.2 Feasibility study
- 1.1.3 Scope, timeline & task allocation
- 1.1.4 Requirements specification document

1.2 System Design

- 1.2.1 Use case diagram
- 1.2.2 ER diagram
- 1.2.3 System architecture (web-based)
- 1.2.4 DFD

1.3 Database Design

- 1.3.1 Schema: medicine, batch, stock tables
- 1.3.2 Schema: sales, invoice, prescription tables
- 1.3.3 Schema: supplier, customer, user tables
- 1.3.4 Normalization & relationship mapping

1.4 Frontend

- 1.4.1 Inventory management interface
- 1.4.2 Sales & billing interface (POS, receipts)
- 1.4.3 Purchase & supplier interface
- 1.4.4 Customer Management Interface
- 1.4.5 User and Role Management Interface
- 1.4.6 Report and Analytics Interface

1.5 Backend

- 1.5.1** Inventory Management Backend
- 1.5.2** Sales and Billing Backend
- 1.5.3** Purchase & supplier Backend
- 1.5.4** Customer Management Backend
- 1.5.5** User and Role Management Backend
- 1.5.6** Report and Analytics Backend

1.6 Testing & Quality Assurance

- 1.6.1** Unit testing per module
- 1.6.2** Integration testing
- 1.6.3** Performance testing (5+ concurrent users)

1.7 Deployment & Documentation

- 1.7.1** User manual
- 1.7.2** Final report & presentation
